

ANNEM SURENDRA PRAKYATH

AI/ML Engineer • Full Stack Developer • Software Engineer

+91 7396592648 asprakyath@gmail.com [linkedin.com/in/as-prakyath-2504b42bb](https://www.linkedin.com/in/as-prakyath-2504b42bb) github.com/asprakyath-alt

PROFESSIONAL SUMMARY

Results-driven final-year B.Tech CSE (AI & ML) student with strong hands-on experience building full-stack web applications and AI-powered systems. Proficient in designing responsive frontend interfaces. Passionate about leveraging Machine Learning, Generative AI, and modern web technologies to solve real-world problems. Actively exploring advancements in AI Agents, Prompt Engineering, and scalable software architecture.

EDUCATION

DRK Institute of Science & Technology, Hyderabad

2023 – 2027

B.Tech in Computer Science Engineering (Artificial Intelligence & Machine Learning)

JNTUH Affiliated • Expected Graduation: 2027

TECHNICAL SKILLS

Languages	Python, Java (Basics), C
Web Technologies	HTML5, CSS3, JavaScript
Databases	MySQL, MongoDB
AI & ML	Prompt Engineering, AI Agents, ML Fundamentals
Cloud & Tools	Git, GitHub, VS Code, Jupyter Notebook, Anaconda

PROJECTS

AI-Driven Adaptive Exam Assessment System | Python, Machine Learning, Flask, SQLite

- Developed an AI-powered adaptive examination system that adjusts question difficulty based on user performance.
- Implemented machine learning techniques to evaluate responses and generate personalized assessments.
- Designed a secure backend for managing users, questions, and test results.
- Improved assessment accuracy and user experience through adaptive question selection.

3D Construction Modeling System | Python, Blender API, JSON, CSV

- Built a Python-based system to generate 2D blueprints and 3D building models from structured layout data.
- Automated 3D model construction by integrating the Blender Python API for rendering building layouts.
- Managed builder and client data using CSV-based records for streamlined project tracking.
- Designed a modular architecture separating layout parsing, blueprint generation, and 3D rendering logic.

ACHIEVEMENTS & ACTIVITIES

- Continuously building and shipping AI-integrated and full-stack software projects, demonstrating consistent self-directed learning and hands-on execution.
- Actively exploring cutting-edge AI research areas including Generative AI, LLM fine-tuning, multi-agent systems, and RAG architectures.
- Developed 7+ end-to-end projects spanning AI assistants, web platforms, and mobile applications, published on GitHub.

SOFT SKILLS

Problem Solving • Communication • Teamwork • Adaptability • Time Management
